Got your phone message. Have asked LBG if possible to get me Excel files today. But all we are sending you is Excel version of ROD Tables 34 & 35, so if you are just looking for the info, it is all there (just difficult to manipulate). Let me know if ROD Tables 34 & 35 are NOT what you were looking for, and we can have a quick call with LBG so you can describe what you need.

Subject: Present value estimates

Hi Alice,

Similar to the RD worksheet you provided several months ago, is it possible to get a copy of the worksheet you all used to calculate the present value of potential alternatives? Frankly, what we are trying to verify is the gross values of alternatives as well (selected most critical) if that is simpler to provide. Thanks.

Juan
